SUMMARY

Senior transformation and operations leader with 25 years of experience building the operating models, governance, and execution disciplines that improve delivery, control, and scale. Trusted to lead complex federal, commercial, and regulated environments to stand up business functions, optimize processes, strengthen portfolio governance, and turn fragmented priorities into clear operating rhythm, performance visibility, and sustained execution. Dartmouth MBA who brings deep expertise in business process architecture, project management, data analysis and change adoption, combined with an information systems foundation and AI enablement to deliver practical, high-impact enterprise solutions.

CORE COMPETENCIES

- Operating Model & Execution Design
- Business Process Architecture & Optimization
- Project Management & Governance Leadership
- Cross-Functional Transformation Delivery
- Risk, KPI & Pain Point Assessment
- Change Enablement & Adoption
- Systems Development Lifecycle (Agile / Waterfall)
- AI Enablement & Governance

PROFESSIONAL EXPERIENCE

Marriott International April 2025 – January 2026

Senior Manager, Business Process Center of Excellence (FLEX/Contract Role) | Bethesda, MD

- Built deployment coordination structure across 80+ activities, aligning teams to achieve on-time go-live.
- Standardized 50+ workflows using BPMN across customer service, finance, procurement and digital programs.
- Established SAP Signavio access governance to improve control, accountability, and license management.
- Built Marriott's L1–4 process taxonomy to anchor process management across 10 global business functions.
- Managed SAP vendor relationship through case oversight and monthly reviews of issue resolution and functionality.

Portfolio Alignment Partners June 2024 – March 2025

Senior Consultant, Business Assessment & AI Enablement | Washington, DC

- Directed county assessment and operating recommendations that shaped priorities and secured $500K in funding.
- Built prioritization framework and workshop cadence to sequence a two-year county transformation roadmap.
- Built AI-enabled proposal workflow to accelerate solution design and pricing cycle time by 50%.
- Designed AI review workflow using multi-persona simulation to strengthen proposal quality and submission rigor.
- Built PAP's AI governance framework and delivery model, anchoring the firm's $2M HHSC pursuit.

Windsor Group, LLC August 2020 – June 2024

Senior Manager, Project Manager & Process Analysis Lead (PMO) | Bethesda, MD

- Built NSF's PMO from the ground up, establishing process execution and governance across a 100+ project portfolio.
- Led $400K congressionally mandated NSF report, aligning 25+ stakeholders for first on-time release in 7 years.
- Applied Six Sigma to NSF workflows, reducing cycle-time variance 45%, idle time 60%, and rework 15%.
- Designed and deployed risk mitigation framework to reduce exposure across NSF's project portfolio.
- Architected a standardized product prioritization approach adopted across the enterprise.
- Designed NSF change and training approach to prepare staff to sustain PMO operations post-contract.
- Deployed NSF KPI dashboards and conducted weekly sessions, across a multi-project portfolio.

H. Christopher Harrison Consulting, LLC May 2015 – August 2020

Principal Consultant | Arlington, VA

- Led ERISA pension agile delivery across requirements, risk controls, and execution priorities.
- Redesigned pension workflows and controls in an ERISA environment, improving accuracy for 60K+ participants.
- Applied Six Sigma to redesign delivery workflows, cutting waste and defects by 60%.
- Standardized SQL validation controls to strengthen pension data quality, reporting accuracy, and release readiness.

- Structured UAT and sprint demo cadence with users and IT to improve defect resolution and release readiness.

Publicis Sapient Consulting March 2007 – April 2015

Manager, Operations Improvement & Transformation | Arlington, VA

- Built USCIS E-Verify analytics and case management business unit from the ground up.
- Designed analytics and case management operating model and org structure, achieving full capability within year one.
- Structured cross-functional workflow redesign for E-Verify to improve operating performance and role clarity.
- Enabled operating model adoption by training 100+ staff on SOPs, workflow standards, and role expectations.
- Improved compliance case review workflow, cutting false positives 15% and backlog 30% across the business unit.
- Led The Hartford quoting platform redesign, defining future-state workflow with business and technology stakeholders.
- Led business strategy development for myPath to increase insurance and risk industry workforce.

Accenture

First Tenure: June 1995 – Aug 1999 | Second Tenure: Feb 2005 – Feb 2007

Senior Associate, Business Process & Systems Integration | Arlington, VA

- Built $300M DHS modernization business case to align investment priorities and secure executive approval.
- Led CBP's five-year modernization roadmap, defining strategic initiatives and performance targets.
- Reengineered CMS healthcare claims workflows, improving efficiency 25% across 1.1B annual claims.
- Led HUD appraisal process reengineering, impacting 750K annual assessments.
- Supported Maryland DOT system modernization, aligning online applications to future-state operating needs.

Early Career 2002 - 2004

Strategic Initiatives Coordinator, Crystal Stairs • Associate Product Manager, Becton Dickinson

- Built early experience in strategy, planning, and cross-functional execution across nonprofit and medical device roles.

BOARD LEADERSHIP

Arlington Thrive June 2022 – Present

Member, Board of Directors (Finance Committee) — Contributed governance, strategic guidance, and community support for a nonprofit serving working families.
