- High-Impact Cross-Functional Initiative Leadership
- Execution Plans, Milestones, and Measurable Outcomes
- Data Analysis, Insights, and Decision-Making
- Business Process Improvement and Scalable Automation
- AI Integration Across Workflows, Analytics, and Decision-Making
- Senior Leader Communication and Cross-Functional Influence
- Systems Development Lifecycle (Agile / Waterfall)
- Change Management and Adoption

PROFESSIONAL EXPERIENCE

Marriott International

April 2025 – January 2026

Senior Manager, Business Process Center of Excellence (FLEX/Contract Role) | Bethesda, MD

- Built deployment coordination structure across 80+ activities, aligning teams to achieve on-time go-live.
- Built Marriott's L1–4 process taxonomy to anchor process management across 10 global business functions.
- Standardized 50+ workflows using BPMN across customer service, finance, procurement and digital programs.
- Established SAP Signavio access governance to improve control, accountability, and license management.
- Managed SAP vendor relationship through case oversight and monthly reviews of issue resolution and functionality.

Portfolio Alignment Partners

June 2024 – March 2025

Senior Consultant, Business Assessment & AI Enablement | Washington, DC

- Architected PAP's AI governance framework and delivery model, anchoring the firm's \$2M HHSC pursuit.
- Developed AI-enabled proposal workflow to accelerate solution design and pricing cycle time by 50%.
- Designed AI review workflow using multi-persona simulation to strengthen proposal quality and submission rigor.
- Directed county assessment and operating recommendations that shaped priorities and secured \$500K in funding.
- Built prioritization framework and workshop cadence to sequence a two-year county transformation roadmap.

Windsor Group, LLC

August 2020 – June 2024

Senior Manager, Project Manager & Process Analysis Lead (PMO) | Bethesda, MD

- Built NSF's PMO from the ground up, establishing process execution and governance across a 100+ project portfolio.
- Architected a standardized product prioritization approach adopted across the enterprise.
- Deployed NSF KPI dashboards and conducted weekly sessions, across a multi-project portfolio.
- Led \$400K congressionally mandated NSF report, aligning 25+ stakeholders for first on-time release in 7 years.
- Applied Six Sigma to NSF workflows, reducing cycle-time variance 45%, idle time 60%, and rework 15%.
- Designed and deployed risk mitigation framework to reduce exposure across NSF's project portfolio.
- Designed NSF change and training approach to prepare staff to sustain PMO operations post-contract.

H. Christopher Harrison Consulting, LLC

May 2015 – August 2020

Principal Consultant | Arlington, VA

- Led agile delivery for defined benefit pension system including analysis, requirements, testing, and change adoption.
- Structured UAT and sprint demo cadence with users and IT to improve defect resolution and release readiness.

- Standardized SQL validation controls to strengthen pension data quality, reporting accuracy, and release readiness.
- Redesigned defined pension workflows in an ERISA-regulated environment, impacting 60K+ plan participants.
- Applied Six Sigma framework to redesign delivery workflows, cutting waste and defects by 60%.

Publicis Sapient Consulting

March 2007 – April 2015

Manager, Operations Improvement & Transformation | Arlington, VA

- Built USCIS E-Verify analytics and case management business unit from the ground up.
- Designed analytics and case management operating model and org structure, achieving full capability in year one.
- Structured cross-functional workflow redesign for E-Verify to improve operating performance and role clarity.
- Improved compliance case review workflow, cutting false positives 15% and backlog 30% across the business unit.
- Led The Hartford quoting platform redesign, defining future-state workflow with business and technology stakeholders.
- Drove ADT digital marketing experience updates using A/B testing and user insights to boost traffic and support sales.
- Enabled operating model adoption thru training ~100+ staff on SOPs, workflow standards, and role expectations.
- Led business strategy development for myPath to increase insurance and risk industry workforce.

Accenture

First Tenure: June 1995 – Aug 1999 | Second Tenure: Feb 2005 – Feb 2007

Senior Associate, Business Process & Systems Integration | Arlington, VA

- Built \$300M DHS modernization business case to align investment priorities and secure executive approval.
- Defined CBP’s five-year modernization roadmap, leading stakeholders thru initiative prioritization and KPI definition.
- Reengineered CMS healthcare claims workflows, improving efficiency 25% across 1.1B annual claims.
- Led HUD appraisal process reengineering, impacting 750K annual assessments.
- Supported Maryland DOT system modernization, aligning online applications to future-state operating needs.

Early Career

2002 - 2004

Strategic Initiatives Coordinator, Crystal Stairs • Associate Product Manager, Becton Dickinson

- Crystal Stairs: Led strategic planning and execution for nonprofit specializing in child daycare services in Los Angeles.
- Becton Dicinson: Led marketing and sales efforts for vacutainer medical equipment.

BOARD LEADERSHIP

Arlington Thrive

June 2022 – Present

Member, Board of Directors (Finance Committee) — Contributed governance, strategic guidance, and community support for a nonprofit serving working families.
